Opinion from Customers

As a result of conducting a questionnaire survey to 400 general consumers (woman) about the bag closure of a food bag, it turned out that a large majority of consumers are asking for the function "it can open easily by hand" and "it can re-close."

Q. Bag closure for the food in a poly bag
Do you want it which
『can be opened by hand easily』 ?

Q. Bag closure for the food in a poly bag
Do you want it which
『can be re-closed a bag again』 ?

Product Name	Size	Color	Product Code
ECOT TAPE	9mm×100m	Red	HZ-E091004

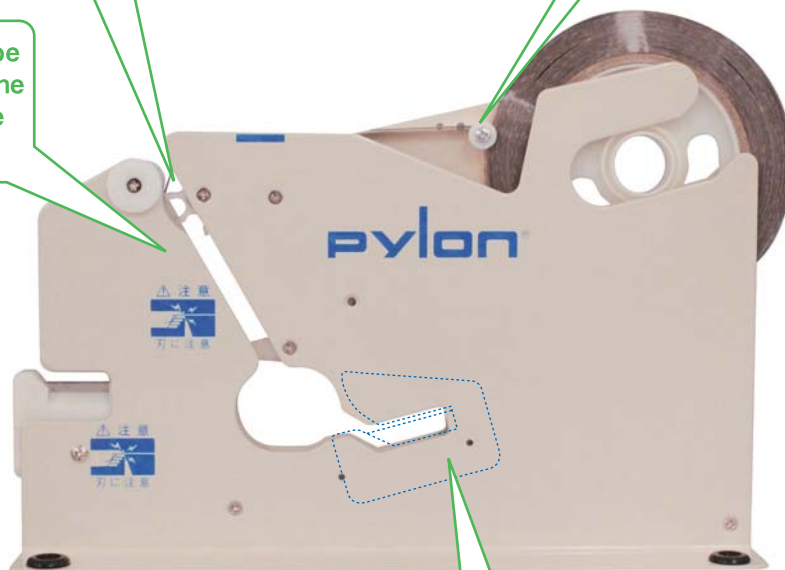

pylon Bag Sealer ECOT

Feature

It is possible to distribute a tape with fixed length by stopping a sprocket in the regular position.

The ease of opening a tape is improved by adopting the bending mechanism on the part of a leading tape.

A stopper to prevent from distributing a tape too much.

For 9mm width of ECOT TAPE
Product Code : KB-912

A cutter(option) can be applied in the center part. An excessive portion of a poly bag can be cut in the operation linked with sealing a tape onto a poly bag.
